**CheapOair Launches Its Award-Winning Flight Search App For
Amazon's Kindle Fire**

Leading Online Travel Agency Expands Its Mobile Suite of Apps

NEW YORK, NY – (March XX, 2013) – Leading travel website, CheapOair (www.cheapOair.com) announced its award-winning Flight Search app is now available on Amazon's Kindle Fire. As the newest expansion to CheapOair's suite of mobile apps, the Kindle Fire app joins the impressive line of highly rated iPhone, iPad, Android, Windows 7 and [Windows 8](#), apps offered by the online travel agency.

Available in the Amazon app store, CheapOair's Kindle Fire app serves as an efficient platform for customers to book travel from the palm of their hand. The app provides an easy and hassle-free process for searching affordable flights and car rentals on the go. Functions include quick and efficient sorting of millions of discounted flights by price, stops and departure or arrival times. Customers are able to easily book from their devices at anytime from anywhere in the world. Additional features are safe, industry standard SSL security, the ability to check previous bookings, view airport terminal maps, weather information, flight status updates and 24/7 customer support.

"We are proud to announce CheapOair's latest Kindle Fire app, as it enhances our overall presence in the mobile technology space," said Harsh Sood CheapOair's Chief Technology Officer. "Given the influence mobile technology has in today's society, we are committed to ensure our services are always readily available to help our customers save time and money while traveling."

As travelers increasingly rely on mobile devices to research and book trips, CheapOair continues to expand its mobile offerings. In addition to their app on multiple platforms, CheapOair offers a separate [mobile site](#) that is accessible by anyone with an Internet enabled phone. All CheapOair platforms offer sleek, easy-to-use designs which constantly put them at the top of user reviews and award lists.
